

Meet Saathi 🤝

Your friendly companion on WhatsApp — a simple guide to get started. For Rohan & every new team member.

Who is Saathi?

Saathi is your **friendly companion on WhatsApp** — here to help you, walk with you through your day, and cheer you on. It gently helps you **plan your day, stay close to your goal, and learn the product**, and it checks in like a good friend. It says hello first, so there's nothing to remember — you can just chat back whenever you like. 😊

Getting started — 3 easy steps (just once)

1 Save Saathi's number

Whenever you have a moment, you can save this WhatsApp number as **"Saathi (TrigunAI)"**:

+91 91352 55107

2 Say a quick hello

Open WhatsApp, find Saathi, and just send a friendly hello to say hi:

Hi Saathi

Saathi will happily welcome you. Feel free to chat in **Hindi, English, or a mix** — whatever feels easy. You can **switch language anytime** — even talk fully in English — just tell Saathi, for example *"let's talk in English"*, and it'll follow you. 😊

3 Set your goal together

Saathi will gently ask, *"In the next 30 days, what would you love to achieve?"* Just share it in your own words (for example: *"first paying institute in Patna"*). Saathi will write it down clearly for you — and from then on, it'll keep that goal close, and quietly help you move towards it each day.

A gentle daily rhythm (that's really all)

☀ MORNING · ~9 AM

Saathi says good morning and asks what you're thinking for the day. Just share what's on your mind — where you might go, and the one thing you'd love to get done. It'll help you shape it.

"Kurji side jaunga, 3 visits. Study Hub ka haan lena hai."

🏠 DURING THE DAY

Go about your visits as usual — Saathi won't disturb you. If something nice (or tricky) happens and you feel like sharing, it's always there. No pressure at all.

(Whenever you like, you can message Saathi anytime.)

🌙 EVENING · ~8 PM

Saathi asks how your day went, like a friend would. Share whatever you feel — what went well, what didn't. Together you'll softly line up tomorrow.

"2 visits hue, owner mila, demo-link bhej diya. Teesra band tha."

That's really it — just a few minutes in the morning and evening, whenever it suits you. Simply chat naturally.

You'll learn a little every day too

Along the way, Saathi will share **one small thing** about the product or about selling, and ask a friendly question to see how it landed. Answer in your own words — and if something's off, it'll gently help you see it, no worries at all. Over a few weeks you'll know the product and the field method really well. Anytime something isn't clear, you can simply say: **Saathi, ye samajh nahi aaya**

A few little things that help 💛

- **A quick hello each day is lovely** — even on a hard day. A short, honest line is more than enough. No pressure to write a lot.

- **Feel free to be open** — Saathi is here to help you, never to judge. If a visit didn't go well, sharing it is exactly how Saathi can help you next time.
- **Ask anytime you'd like a hand** — "Saathi, isme help chahiye." There's no such thing as a silly question here. 😊

One thing to remember: Saathi is always on your side — like a friend who genuinely wants you to do well. Deepak can see how you're doing too — **not to check up on you, but to support you** when you'd like a hand and to celebrate your wins with you. The more openly you chat, the more Saathi can help. You've got this. 💪
