

## Test the **logo & theme** before your visit

Do this **once (5 minutes)** so you can walk in and show any institute **their own logo, colours & watermark** live on a real test paper. Best of all — set up **each institute's branding the night before** and screenshot the branded paper to show them instantly.

1

### Sign in as a teacher

Open [acharya.trigunai.com/teacher](https://acharya.trigunai.com/teacher) → **Continue with Google** (or email — no password). In **Institute name** type the institute you're visiting (e.g. "Brilliant Classes").

2

### Open Branding

In the top menu tap **Branding** (or the "🎨 Make it yours" card on the home screen).

3

### Set it up as the institute

- Type the **institute's name** (shows on every paper)
- Pick their **brand colour** — tap a swatch, or paste their exact colour code
- Upload their **logo** — a photo or file, under 500 KB (a PNG with clear background looks best)
- Turn on **Watermark** — their logo faint behind every paper (anti-copy)
- Watch the **Live Preview** on the right change · then tap **Save my branding**

4

### Make a test

Go to **My class** → create a test (pick exam + chapter) → wait ~30 seconds → you get a test **code**.

5

### See the branded paper

Open the test → **Print paper**. You'll see **their logo** at the top, **their colour**, the **watermark** behind the questions, and a small "Powered by Acharya" at the bottom. Screenshot this to show the owner.

6

### See the **student side**

Open the share link [acharya.trigunai.com/t/CODE](https://acharya.trigunai.com/t/CODE) on your phone → the student's test page shows **their logo, name & colour** too.

#### ✓ TICK BEFORE ANY VISIT

- ☐ Logo shows on the paper header
- ☐ Brand colour on paper + student page
- ☐ Watermark faint behind the questions
- ☐ Institute name is correct
- ☐ "Powered by Acharya" is there (that stays — it's the only thing that's ours)

#### ★ PRO TIPS

- ★ **Ask the owner for their logo + colour** — get the logo on WhatsApp beforehand
- ★ **Prep each institute the night before** — screenshot the branded paper ready to show
- ★ Logo looks boxy? Ask for a **transparent PNG**
- ★ **Next institute?** Just open Branding again — change the name, colour & logo (or "Remove my logo")

#### SAY THIS TO THE OWNER

**"This is your app — your logo, your colours, your name on every test paper. Set up in a minute, and it's free — you only pay after your first month."**
