

Answer Key — how to check it yourself

BSSC 2nd Inter Level practice paper · SET 1 · 106 official questions + 44 Acharya-generated

You do not need to know any answer to check this sheet.

For an official question — open that advertisement's Model Answer PDF on bssc.bihar.gov.in, go to the page named in the last column, find the row for that question number, and read the letter. It must match column **Ans**. This is number-matching, not subject knowledge.

For a generated question — the working is printed. Follow the arithmetic.

Suggested check: pick any ten rows at random and verify them. Ten matching rows is far stronger evidence than any assurance — and if even one fails, tell us and we will pull the question and rebuild.
