Be straight with the owner — this builds trust: *“The platform is live today with everything above. We're actively adding the rest of your list over the coming weeks — here's exactly what:”*

- **More BPSC past papers** — additional years are already processed, going live as official keys are confirmed.
- **TRE & Daroga** — dedicated question sets are on the build list next.
- **Current Affairs** — updated every month (ongoing).
- **Deeper General Studies** (Polity · Geography · History · Economics) — expanding coverage.

Nothing is faked — what's on the screen is real and works today; the rest is genuinely in progress.

THE OFFER + CLOSE: *“Let's start your students on it now — free. They practise, you see who's weak where, and we grow the question bank with your feedback. Once your students are actively using it, we settle the pricing.”*
