Date: 19 August 2026

To: Heena *[full legal name to be completed]*

Subject: Offer of engagement — Inside Sales & Client Relationship Executive

Dear Heena,

We are pleased to offer you the position of **Inside Sales & Client Relationship Executive** at TrigunAI Innovations Private Limited.

We build **Acharya** — an exam-paper generation and assessment engine used by coaching institutes and schools. You are joining to own the part of our work that decides whether an institute ever really uses it: **the conversation on the phone**.

1. Role

You will work as one half of a two-person field team, alongside **Rohan Kr. Saurabh** (Business Development Executive, field visits). Your responsibilities:

- 1. Calling institutes from the list provided to you** — qualifying them, and **booking demo appointments** for Rohan so he visits only institutes worth the trip.
- 2. Following up after Rohan's visits** — keeping every institute warm between and after visits.
- 3. Getting institutes registered and actively testing** the product on its 14-day free trial.
- 4. Keeping them using it** — a second test, another batch — and reporting real usage to the founder.
- 5. Maintaining an honest record** of every institute in the shared team ledger, the same day.

Your success is measured by institutes whose students have actually taken a test — not by the number of calls made.

2. Compensation

Component	Amount
Fixed monthly	₹8,000 per month
Variable — per successful conversion	₹1,100 per institute

"Conversion" means: an institute that has been **registered on Acharya and has run at least one test with its students** — verified in our system — where you were the person who drove it.

We have defined it this way deliberately. Acharya opens on a 14-day free trial, so there is no payment at the time you do your work. Your incentive is therefore tied to the milestone you can actually control and see: an

institute genuinely using the product. Whether they subscribe afterwards is the owner's decision and is handled by the founder.

Payment: fixed salary by the 7th of the following month. Variable component paid monthly alongside the fixed salary, for conversions verified in that month.

You are not required or expected to ask any institute for money, negotiate pricing, or collect payment. You may state our published pricing openly and factually if asked. All commercial and payment discussions are handled by the founder, separately, after an institute's trial.

3. Terms

- **Type:** Full-time engagement.
 - **Location:** Patna, Bihar. Primarily phone-based; occasional in-person work as agreed.
 - **Working days:** Monday to Saturday. Sundays and public holidays off.
 - **Reporting to:** Deepak Kumar, Co-Founder (CEO & CTO).
 - **Start date:** 20 August 2026
 - **Review:** an honest review at the end of your first **six weeks**, covering both what you have achieved and what support you need from us.
-

4. Tools and training provided

- **Saathi** — your own AI companion on WhatsApp. It plans your day with you, teaches you the product and the skills the role needs, tracks your progress, and answers anything you ask, any time. You are not expected to already know our product; Saathi will teach you.
 - Access to the Acharya platform, the shared institute ledger, and the call scripts and materials you need.
-

5. Confidentiality

Institute contacts, student data, pricing, product information and internal materials are confidential and must not be shared outside the company or used for any other purpose. Student personal data must be handled with particular care and never shared or copied.

6. Notice

Either party may end this engagement with **15 days' written notice** during the first three months, and **30 days'** thereafter.

We are a small, early company, and we are honest about that. What we can promise is that your work here will matter visibly — you will be able to point at institutes that are using our product because of you.

We are glad to have you with us.
