

Acharya — Teacher Outreach Caller Brief

For: Priyanshu (caller) · **From:** Deepak, TrigunAI · **Updated:** 2026-07-02

Your job: **call small coaching-centre owners in Patna, understand their problem, pitch Acharya, and book a free 14-day pilot.** You are not selling hard — you are having a genuine conversation and finding teachers who have a real problem we can solve.

One golden rule: we only measure *real conversations held* and *pilots booked* — not calls dialed. A good call = you understood their business and either booked a pilot or learned exactly why not.

⚠ 3 rules you must never break

1. **Always CALL first. Never send a cold WhatsApp to these numbers.** WhatsApp only *after* the person says on the call "yes, WhatsApp me the details." (Sending WhatsApp without permission can get our main number banned — the same number our real students use.)
 2. **Never promise marks or "your students will top the exam."** We say "*more practice, visible progress*" — never guaranteed results.
 3. **Never say "thousands of teachers use this."** The truth: we are newly launched and looking for our first teacher partners. Honesty builds trust and it's the rule.
-

1. WHO to call

Small, **independent** coaching centres and tuition teachers in Patna — the ones with roughly **10–200 students**. NOT the big chains (Aakash, Vidyamandir, Mentors Eduserv, Allen) — they're too big and have their own systems.

Good fit = a teacher/owner who:

- teaches an exam-prep subject: NEET, IIT-JEE, board (11th/12th), SSC/banking/railway
- runs their own small batch (it's *their* tuition, they decide the money)
- personally handles students (so they feel the doubt-load and retention pain)

The call list is at the bottom of this document (Section 8). Start with the ones that already have a phone number (Q1–Q5). For Q6–Q10, the name is known — search the centre name on Justdial/Google to get the number, then call.

2. HOW a call goes (the flow)

Keep it natural. The whole thing is ~8–12 minutes. **Talk 30%, listen 70%.**

Step 1 — Opening (30 seconds)

"Namaste [name] ji — main Priyanshu bol raha hoon, TrigunAI se. Hum teachers ke liye ek AI tutor banate hain jo aapke *apne naam* se WhatsApp pe chalta hai. Kuch bechne se pehle main samajhna chahta hoon ki aapki classes kaise chalti hain — bas 2 minute, kuch sawaal puch sakta hoon?"

If they're busy: "*Koi baat nahi, main [time] pe call kar loon?*" — book a callback, note it.

Step 2 — Discovery (their turn — ask, then LISTEN, write down what they say)

Ask these one at a time. The goal is to find *the problem that makes them talk fast*:

Their business:

1. "Abhi kitne students hain? Kaun si class / exam? Monthly fees kitni hai?"
2. "Naye students kaise aate hain? Pichhla student kyun chhod ke gaya?"

Their pain (listen for the one that stings):

3. "Jab kisi student ko raat 9 baje doubt aata hai — tab kya hota hai?"
4. "Aapki shaam ka kitna time doubt messages mein jaata hai?"
5. "Aapko kaise pata chalta hai ki koi student chupchaap peeche chhoot raha hai — test result se pehle?"
6. "Kya kabhi students bade apps (Physics Wallah, BYJU'S type) ki wajah se gaye hain?"

Money:

7. "Agar mahine mein 2 extra students tik jaayein, toh aapke liye woh kitne ka fayda hai?"
(*Their answer prices it for them: 2 students' fees vs our ₹4,999.*)

Step 3 — Only pitch if they qualify (3 of these 4 must be true)

- ☐ Has **10+ paying students** right now
- ☐ Teaches an **exam-prep subject** (board / NEET / govt exam)
- ☐ Named a **real pain** in the questions above (doubts / retention / competition)
- ☐ **They own the money decision** (it's their tuition)

If they **DON'T** qualify: thank them, ask "*aap kisi ko jaante hain jo bada batch chalata hai?*" (get a referral name+number), note it, move on. Don't pitch the wrong person.

Step 4 — The pitch (only after discovery — see Section 3)

Repeat their pain back first: "*Aapne kaha [their exact words]... iska seedha hal ye hai...*"

Step 5 — The close + opt-in

"10 students dijiye, 14 din, bilkul free. Kaam kare toh ₹4,999 mahina, na kare toh band — koi charge nahi. Main aapko WhatsApp pe details aur ek demo bhej doon?"

- If **YES to pilot** → book onboarding time now: "*Kal shaam 6 baje set kar dein?*"

- If **"WhatsApp me"** → that's the opt-in. Now (and only now) send the WhatsApp message (Section 5).
- **Log the call** (Section 6) — every time.

3. THE PITCH (say this — 60 seconds)

"Aap apne students ko hafte mein kuch ghante padhaate hain. Baaki 160 ghante woh akele hote hain — tabhi doubts jama hote hain, practice nahi hoti, aur kamzor students chupchaap chhod dete hain.

Acharya aapka apna tutor hai, aapke naam se, WhatsApp pe. Aapke students kabhi bhi message karein — ye [subject] ke doubts step-by-step solve karta hai, roz practice deta hai jo aapke syllabus se match karti hai, aur exam se pehle revision karwata hai. Aur aapko har hafte report milti hai — kaun practice kar raha hai, kaun stuck hai, kis topic pe.

Students isliye tikte hain kyunki unhe improvement dikhta hai. Parents ko improvement dikhta hai. Aapka batch badhta hai.

₹4,999 mahina, flat — ek student ki fees se kam. Aur pehle 14 din free, aapke 10 students ke saath — pehle dekh lijiye ki kaam karta hai, phir paisa dijiye."

4. EXACT BENEFITS we offer (be able to explain each)

#	What the teacher gets	In plain words
1	Their own WhatsApp tutor number	Students message it directly, any time
2	Doubt-solving in their subject	Step-by-step, Hindi ya English, 24×7
3	Daily practice + revision	Matched to the exact syllabus/exam they teach
4	Weekly progress report to the teacher	Kaun active hai, kaun stuck hai, kis topic pe
5	Their brand on it	Acharya khud ko "[Teacher] ka tutor" batata hai

The price & offer (memorise exactly)

- **₹4,999 per month, flat** — up to **50 active students** (no per-student fee)
- **First 14 days FREE** with 10 of their students — no card, no commitment
- After 14 days: they decide. Pay ₹4,999/month, or we stop — **no charge**

What it is NOT (say this — it builds trust)

- **NOT** a replacement for the teacher — it does the homework-hours support; teacher teaches
- **NOT** an app to install — it's WhatsApp, which students already have
- **NOT** a per-student fee that punishes growth — flat rate up to 50 students

5. WHAT TO SEND ON WHATSAPP (only after they say yes on the call)

If they said "WhatsApp me the details" (curious, not committed yet)

Namaste [Name] ji 🙏

Baat karke accha laga. Jaisa btaya — *Acharya aapke apne naam se ek WhatsApp tutor hai, aapke students ke liye.*

Jab aap class mein nahi hote, tab students koi bhi doubt puch sakte hain — [subject] mein step-by-step solve karta hai, roz practice deta hai, exam se pehle revision. Aur aapko *har hafte report* milti hai — kaun practice kar raha hai, kaun peeche chhoot raha hai.

✅ Aapke naam ke neeche — "[Name] ji ka tutor"

✅ Students ko koi app nahi — bas WhatsApp

✅ Flat ₹4,999/month tak 50 students

Pehle *14 din bilkul free*, aapke 10 students ke saath. Kaam kare toh rakhiye, na kare toh band — koi charge nahi.

Ye raha ek demo: [DEMO LINK — Deepak fill]. Kal shuru karein? 😊

If they said YES to the pilot on the call

[Name] ji, बढ़िया — aapka *14-din free pilot* aaj se shuru 🎉

Kal aapko ek hi message bhejunga jo aap apne 10 students ko forward kar denge — bas itna hi.

Har hafte progress report milegi. 14 din baad aap decide karenge: ₹4,999/month ya band.

Onboarding: [confirmed time]. Main call karunga. 👍

(Priyanshu: after this, tell Deepak immediately — he sets up the pilot within 24 hrs.)

6. HOW to record every call (do this after each one — it's the whole point)

Fill one row per call in the tracker below (or a shared sheet Deepak gives you). **Write their exact words** for pain and objection — that's the most valuable thing you collect.

Date	Centre name	Phone	Reached?	Qualified?	Their pain (their words)	Objection (their words)	Outcome	Callback/next

Outcome options: PILOT BOOKED · WHATSAPP SENT · CALLBACK [time] · NOT INTERESTED · WRONG FIT · NO ANSWER

Send Deepak the day's rows every evening. **A booked pilot → tell Deepak the same hour.**

7. OBJECTIONS — quick answers (stay calm, never argue)

They say	You say
"Students already use ChatGPT"	"ChatGPT aapka syllabus nahi jaanta, aapka practice plan nahi deta, aur aapko nahi batata kaun peeche chhoot raha hai. Acharya aapki class ke liye kaam karta hai aur aapko report karta hai."
"₹4,999 zyada hai"	"Ek student ki mahine ki fees jitna. Agar ek bhi student chhodne se ruk jaye, toh nikal aaya."
"Mere students use nahi karenge"	"Yahi toh free 14 din test karte hain. Use na karein toh ek rupya nahi."
"Main technical nahi hoon"	"Aapko kuch technical nahi karna. Setup main karta hoon; students bas ek WhatsApp number pe message karte hain."
"Sochta hoon / baad mein"	"Bilkul — par sochne se behtar hai chalte hue dekhna. Free pilot set kar deta hoon, khud dikh jayega." <i>(Then note the REAL reason behind the hesitation.)</i>

8. THE CALL LIST — Patna NEET / IIT-JEE (start here)

Small independent centres. Q1–Q5 have live numbers — start with these. Q6–Q10: search the name on Justdial/Google to get the number first.

#	Centre	Exam/subject	Area	Phone	Called?
Q1	NEET centre (Boring Rd)	NEET	Boring Road	09054312381	☐
Q2	NEET centre (Nagina Tola)	NEET	Kanchanpur / Kankarbagh	08401942759	☐
Q3	NEET centre (Karmali Chowk)	NEET	NH-30, Karmali Chowk	08050800261	☐
Q4	NEET centre (Nayatola)	NEET	Nayatola	08904899640	☐
Q5	MCM Institute	IIT-JEE	Kankarbagh (nr KV)	7992250244	☐
Q6	Nimbarka Classes	Physics (11/12)	Rajendra Nagar, Road-7	search	☐
Q7	Magadh Science Coaching	Science (11/12)	Bazar Samiti, Musallahpur	search	☐
Q8	Prerna Classes	PCM + Biology	Rajendra Nagar	search	☐
Q9	Blooming Institute Pvt Ltd	NEET / Biology XI-XII	Chakrata Road	search	☐
Q10	JD Tuition Bureau	NEET	Anishabad	search	☐

More numbers: Justdial "NEET coaching Patna", Sulekha "NEET entrance coaching Patna", or Google Maps "NEET/JEE coaching + [Patna locality]". Pick the small ones (low review count).

9. Before you start — checklist

- ☐ You have this document + a way to record calls (Section 6 table or the shared sheet)
 - ☐ Deepak has given you the **demo link** to paste into WhatsApp (Section 5)
 - ☐ Deepak has given you the **pamphlet PDF** to attach (optional but helpful)
 - ☐ You know: the moment a teacher says YES, tell Deepak the same hour
-

Questions during calls? WhatsApp Deepak. If a teacher asks something you can't answer, it's fine to say: "*Achha sawaal — main confirm karke aapko WhatsApp pe bata deta hoon.*" Never make up an answer.
